—Lost—A small gold locket containing two pictures, supposed to be two short pieces of chain attached, Leave at this office.

—Frank Murphy has been promoted from baggage master to a clerkship in Freight Agent Bender's office. Dwight Edwards succeeds him as baggage master.

—News was received here yesterday of the death of Peter Spargo, formerly of the Mint, and a noted cornet player. He died of pneumonia at Sacramento.

—Dr. J. R. Redman has located in this city, and will shortly open an office as a practicing physician. He is at present stopping with his wife at the Ormsby House.

—The ranchers about Washoe lake have fenced in the sheet of water, and will not allow duck hunters or fishermen to go there. Considering that the Lake is public property and has been stocked at the expense of the State, the action of the Washoe ranchers is a little queer.

—J. M. Campbell, of the Walker Lake Bulletin, made a sound argument for the instructions to the State Convention regarding the exclusion of pauper immigration. He favored no half-way work, but wants to make a clean sweep. His ideas are endorsed by every right thinking man in the State.

—The ceiling of the Assembly Chamber at Albany, New York, threatens to fall down bodily. It was allowed to remain in a crooked condition for years in the hope that it might fall down and wipe out the Legislative body, but hope long deferred sickened the taxpayers, and they are now moving to mend it.

—It is not likely that the Mugwumps can be won back to the Republican fold this year; but by the nomination of an unobjectionable ticket they can be stripped of their pretenses of superior goodness and forced to play the part of outright and unconditional Democrats, which will end their career in a fitly, ridiculous and disgraceful manner. —Ex.

Haverly's Minstrels.

The commodious Grand Opera House was crowded last evening by an old-time audience, the attraction being a performance by Haverly's Minstrels. Haverly's company always receives a royal welcome in Milwaukee. A reason for this is that Haverly has always kept his promise to the local public, and judging from the continuous laughter and enthusiastic applause last evening, the present company is no exception to the rule. Geo. H. Wood and Lew Spencer, Haverly's two principle comedians, each made a tremendous hit.—Milwaukee Sentinel.

They will appear at the Carson Theater this evening.

Being More Pleasant
To the taste, more acceptable to the stomach, and more truly beneficial in its action, the famous California liquid fruit remedy, Syrup of Figs, is rapidly superceding all others. Try it. One bottle will prove its merits. For sale by Geo. C. Thaxter, agent.

Letter From Senator W. M. Stewart.

UNITED STATES SENATE,
WASHINGTON, D. C. Feb. 18, 1888.
Geo. Nicholl, Esq., Belmont, Nevada:
DEAR SIR—Yours of the 5th instant is before me. I thank you for your many good suggestions. The matter of storing water by reservoirs is very important to Nevada, and I hope that before this session of Congress closes to be able to obtain some action on it. I have introduced a bill providing for the segregation of lands capable of irrigation from other lands, and for the location of places to be reserved for reservoirs and right of way for ditches and canals for the purpose of irrigation. I also had a resolution passed this week asking the Secretary of the Interior to inform the Senate as to the practicability of using the geological survey for this purpose. I expect a favorable reply from him as I conversed with him on the subject previous to the passage of the resolution, and he expressed himself as delighted with the idea. If I can get it started in the right direction, the work will be prosecuted without delay. The importance of the matter is such that it will command universal attention as soon as it can be seen that the scheme is likely to make homes for a vast number of settlers.

I agree with you that railroads are essential to Nevada, and the time is not far distant when there will be several more in the State. Our State of itself might not attract railroad men, but happily for us it lies between California and the East. The building of railroads across the continent has but just begun. The rapid growth of California promises business for the railroads, and contests for that business among great railroad companies will grow more lively every year. Of course all this will greatly benefit Nevada and develop her dormant industries to a vast extent.

I am glad that my course is meeting with the approval of your people. I shall always be glad to hear from you.

Yours truly,
WM. M. STEWART.

Assessors to Hold Over.

Under the statutes now in force there will be no County Assessors elected this year in Nevada, unless to fill vacancies caused by death or resignation. Henceforth, unless the law is changed, Assessors will hold office for four years from the 1st of January next succeeding their election.—Silver State.

The law extending the term of office to four years was decided unconstitutional from the fact that it extended the term of those elected for two years to four years. The Act was passed by the Legislature of 1883 and became a law March 14, 1888 by reason of a failure on the part of the Governor to take action either for or against it. The Supreme Court rendered a decision that the second section, which extended the term of those in office at that time to the first Monday in January, 1887, was unconstitutional, but the first sections, which provides for the election of County Assessors in 1886 for the term of four years from January 1, 1887, and the third section, which fixes their compensation, remains in force, and no Assessors will be elected until the general election in 1890.

The Copper Corner.

NEW YORK, March 15.—The Post says that for the past three weeks Mr. Secretan, head of the French syndicate which has been cornering copper, has been in London and has finally concluded arrangements which put the copper supply of the world in control of the company of which he is the representative. He had previously secured the whole product of the Rio Tinto, Tharsis and Mason and Barry mines in Spain which produce nearly all the copper mined in Europe, the Calumet and Hecla, Anaconda and others in this country, and the only thing left for him to do was to secure the co-operation of English smelters. This done, he had only to set the price for copper and it could be maintained without difficulty.

The American Plunk.

The following is the full text of the suggestions of the Republican State Central Committee to the State Convention. The main idea came from the National Central Committee, the quoted part is the portion added by the State Central Committee.

The Republican electors in this State and voters, without regard to past political affiliations, difference of action, who believe in the American principle of a protective tariff for the defence and development of home industries and the elevation of home labor, who would reduce the national taxes and prevent the accumulation of a surplus in the Treasury, in harmony with this principle; who are opposed to the attempt now more openly avowed than ever before, to establish a policy which would strike down the American labor to the level of the underpaid and oppressed workers of foreign lands; who favor naval and coast defences, which will enable the United States to conduct international negotiations with self-respect; who gratefully cherish the defenders of our country; who condemn and resent continued and unjust exclusion of rapidly growing Territories, which have an indisputable title to admission to the sisterhood of States; who favor free schools and popular education, a free and honest ballot and a fair count; the protection of every citizen of the United States in his legal rights at home and abroad; a foreign policy—that shall extend our trade and commerce to every land and clime and properly support the dignity of the nation, and the proper motion of friendly and harmonious relations and intercourse between all the States, "and in favor of the absolute exclusion of all Asiatics, paupers, insane, criminals, Nihilists or Anarchists, and limiting all further immigration, and a revision of our naturalization and land laws, the excessive liberality of which causes the undesirable addition to our surplus labor," are cordially invited to unite under this call in the formation of a national ticket.

Syrup of Figs

Is Nature's true laxative. It is the most easily taken, and the most effective remedy known to cleanse the System when Bilious or Costive; to dispel Headaches, Colds, and Fevers; to Cure Habitual Constipation, Indigestion, Piles, etc. Manufactured only by the California Fig Syrup Company, San Francisco, Cal. For sale by George C. Thaxter, agent Carson.

—The extraordinary popularity of Ayer's Cherry Pectoral is the natural result of its use by all classes of people for over forty years. It has proven itself the very best specific for colds, coughs and pulmonary complaints.
